

WinEst Introduction to Estimating - Classroom

\$895 per person

10% off for users on a current service plan

The WinEstimator Introduction to Estimating class provides the cost estimator with a fundamental understanding of the WinEst Pro and WinEst Pro Plus estimating software.

This comprehensive two-day course consists of brief lecture topics followed by hands-on exercises using WinEst software to perform sample estimates. These topics begin with maneuvering through WinEst and progress to include:

- *Takeoff items*
 - *Analyzing the estimate using filters*
 - *Creating winning reports and analysis tools*
- *Adding mark-ups, overhead, taxes and bonds*
 - *Database manipulation*
- *Creating templates and assemblies*

The overall goal of this course is to familiarize the cost estimator with the basic functionality of WinEst software, allowing the estimator to return to the office and immediately prepare cost estimates with WinEst.

Prerequisite: An elementary understanding of Microsoft Windows and estimating techniques.
