

WinEstimator User Conference 2010 · March 1-3, 2010

Embassy Suites- SeaTac Airport · Seattle, WA

Why should you attend the WinEst User Conference?

- 1) **It's educational!** The WinEst User Conference has new subjects such as:
 - Practical BIM usage – A leading national general contractor will demonstrate the practical commercial application of BIM
 - Collaborative Estimating – This course will detail collaborative estimating, and how multiple estimators can work in one estimate simultaneously
 - WinEst Intelligent TakeOff and BIM – leveraging Smart Drawings for Cost Estimating
 - Conceptual Estimating, Real Life Applications - Powerful, fast conceptual estimating taught by a WinEst user!
 - Beginning and Advanced Assemblies
 - OnCenter takeoff software and WinEst
 - Updates in Version 12

- 2) **Networking opportunities!**
 - Network with industry CEO's, executives, chief estimators and business owners
 - Network with leading industry software providers! Sponsors in past years have included RS Means, On Center, and Dexter Chaney

- 3) **Our economic forecast keynote address by Cliff Brewis of McGraw-Hill**
 - Cliff Brewis is responsible for the newsgathering operation of McGraw-Hill Construction/Dodge, and is a frequent speaker on the construction forecast. Brewis has over 30 years experience in construction including positions as a Vice-President at a concrete roof tile manufacturer and a Director of Planning for a roofing subcontractor.
 - Bewis is a graduate in Economics from the University of Michigan, Ann Arbor and has an MBA from American University in Washington D.C.
